IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant(s): **Menard (et al.)**
Serial No.: **09/816,951**
Filed: **March 22, 2001**Attorney Docket: **0011-048**
Examiner: **Donovan, L.**
Group Art Unit: **2832**Title: **Magnetic Chuck For Convergence Apparatus**Assistant Commissioner for Patents
Washington, DC 20231**RESPONSE TO RESTRICTION REQUIREMENT**

In response to the restriction requirement set forth in the Office Action dated **January 23, 2003**, Applicant hereby elects Invention I (Claims 1-22) for prosecution on the merits.

Applicant respectfully traverses the restriction requirement because the inventions are not related as asserted by the Examiner. In particular, the Examiner asserts that "Inventions I and II are related as process of making and product made." However, Inventions I and II are related as a method for mounting an imager (II) and an apparatus used in performing the method (I). Therefore, the restriction requirement is not well founded, and Applicant respectfully requests withdrawal of the restriction requirement.

The above-referenced Office Action dated January 23, 2003, has a shortened statutory period set to expire February 24, 2003 (February 23, 2003 being a Sunday).

FAX RECEIVED

Respectfully Submitted,
